Kalyan - 421301

Hello, my name is Om. I am a second-year engineering student at VESIT(Mumbai), majoring in Artificial Intelligence and Data Science. Over the past four years, I've developed a strong proficiency in Full Stack Web Development, having completed several projects that showcase my skills in building comprehensive applications. I have a solid grasp of Java and Python. Currently, I am actively solving HackerRank problems, and am expanding my knowledge in Deep Learning and Generative AI.
